

# STEP CELL

**Dance is the Hidden Language of the Sole of the Body.**

**When You Dance , your purpose is not to get to a certain place on the floor . It's to enjoy each step along the way**

The Step Cell is one of the most active as well as among the best cells of SRMGPC. This cell, in our college, originated in the year 2005. Since then it's been developing with flying colors. Every year there are tremendously so many new talents which become part of this family and then they spread the magic of their talent in front of everyone.

## **Members List**
