

CREATIVE CANVAS CLUB

“You can’t wait for inspiration, you have to go after it with a club.”

Creativity is contagious, the canvas is your mind, the brushes and colors are your thoughts and feelings, the panorama is your story, and the complete picture is a work of art.

Working with the thought of passing this creativity to be followed through, the C³-(Creative Canvas Club) cell is one of the most active as well as among the best cells of SRMGPC. Every year there are tremendously so many new talents which become part of this family and then they spread the magic of their talent in front of everyone.
