

HOSPITALITY CELL

About:

Hospitality refers to the relationship between a guest and his host wherein the host receives the guest with goodwill , including the reception and the entertainment of guest , visitors or strangers.

In India Hospitality is based on the principle **Atithi Devo Bhava** , meaning the guest is God.

Abhivyakti is an annual fest of SRMCEM. As we know to make the event successful different cells are required and “Hospitality Cell” is one of those cells. This cell may not be in ‘limelight’ but plays a crucial role. As the name indicates this cell deals with welcoming of the guests and guest of honour during the whole event.

We welcome the guest with open heart so that they make this event more special with their presence.
